

Classroom News

Class Name: Oxford

Term : Spring Term 1 2018

School Topic: To Infinity and Beyond

What we have been learning:

This term Oxford Class have gone to 'Infinity and beyond' as our topic has been about Space.

Science

In Science we have learnt about the planets in our solar system. We have researched facts about the planets and create Top Trump style games. We also worked in teams to create models of the solar systems. We are very proud of what we created.

Planetarium

We were lucky enough to have a visit from Winchester Science Museum's Planetarium. During the session we flew through the solar system seeing all the planets and even visited the International Space Station.

Foodwise

We have been learning how to use knives safely. We learnt how to hold a knife correctly and how to shed, dice and julienne different vegetables. We have explored the many ways that eggs could be cooked. We cooked fried and scrambled eggs, egg bread and meringues. We are hoping the students can practise their new skills at home too!

Computing

We have been learning about animation. We have learnt about stop motion animation. We used the iPads and an app called 'My Create' to create our own stop motion animations. Ethan worked amazingly hard and created brilliant animations using a Lego horse and play dough.

Maths

In Maths we have been learning about shapes, position and direction. We learnt about coordinates and applied our skills to games of battleships.

Date to remember –

NCS- National Citizen Service coming to speak to Year 11s and their parents- Wednesday 21st Feb 2:20-2:45

Some photos of our learning
