

Classroom News

Class Name: Windsor

Term : Spring 1 2018

Whole School Topic: Space

What we have been learning

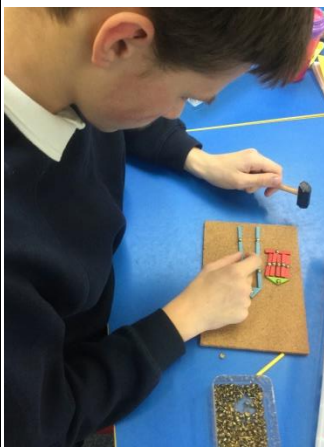

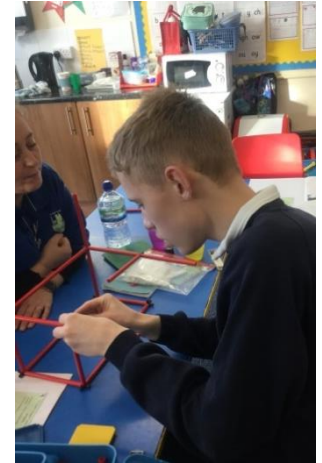

Some photos of our learning

Windsor have been learning to work together to make our entries for the Agricultural Challenge for special schools. The final of the challenge will be on the 28th April.

We have been learning about properties of 2D and 3D shapes in maths and have been building our own shapes. We have also been practicing our positional language. We are continuing to practice our money skills during our class snack shop and at the supermarket.

We have been focusing on the story 'The Darkest Dark' in English. We worked together to make a brilliant rocket and wrote instructions for how to build one. We now plan to write letters from space! We are making good progress with our phonics work.

We have been developing our measuring skills in cooking and have been learning how to make snacks and meals. We particularly enjoyed making macaroni cheese.

Special Moments:

We loved exploring the planetarium that came to school. We have made our own papier-mâché planets too. Alissa and Brandon love their rugby lessons with London Irish on Wednesday afternoons.

Dates & Points to remember :

28th April Agricultural Challenge final
 8th February Music for Autism day.
 9th February end of term.
 19th February first day of term.
 1st March World Book day
