

Classroom News

Class Name: Dover

Term : Summer 1 2019

Whole School Topic: Rainforests

What we have been learning

Photos of our learning

This term we have really focused on our new topic of 'Rainforests & Ecosystems' and have been exploring the impact of waste on our planet.

Eco-bricks

We watched an episode of 'Blue Planet' looking at the widespread nature of plastic on the Earth. From this we have looked at ways of responsibly disposing of unrecyclable plastic by making eco-bricks. Everyone has gotten thoroughly behind us, bringing in rubbish from home which the class have then cleaned and cut up before stuffing it into plastic bottles to then be used to build furniture or play equipment!

Maths

This term we have looked at weight, comparing heavy and light by how they feel and ordering items by weight. We have now begun a topic on position and direction and so far have enjoyed an obstacle course and creating a dance routine by writing instructions for each other!

LAMDA

Everyone has been working incredibly hard towards memorising and performing their poem for the LAMDA exam and it's been amazing to see how confident everyone is now with their performance!

Special Moments:

This term we have been taking part in 'Fine Motor Friday' and everyone has worked so hard on different skills. Each week everyone is beating their own records in bead threading and last week we even had to introduce blindfolds to make building link chains trickier!

Dates & Points to remember :

- 24th May** – Last day of term
- 3rd June** – First day back of school
- 6th June** – Year 8 & 9 Immunisations
- 8th June** – Summer fete!
- 27th June** – Secondary Sports Morning
- 22nd July** – Classroom swap over afternoon
- 24th July** – Last day of school
