Who We Are

We are a newly registered catering business with the primary aim of exposing our students to the catering industry. Our amazing cooks are students who attend The Castle School Post-16 Unit, Monks Lane, Newbury.

Many of our students are passionate about food and cooking, and the business came about following their request to develop a catering enterprise from within the school. As a result of their vision and commitment, the Castle Hospitality and Catering Enterprise was born and is building a fantastic reputation within the local community.

This enterprise is helping our students develop their confidence, social skills and independence, as well as building their catering expertise and hospitality experience.

The business has gone from strength to strength since its launch and is constantly evolving, based on the demands of our client base.

We are very proud to offer an array of catering and hospitality events tailor made to your own specific requirements.

Our students use their knowledge and skills to prepare and cook. We will then transport the freshly made food direct to your venue, set-up, present and display the food ready for your event.

Students, as part of the Castle Hospitality and Catering Service will make sure your event runs as smoothly as possible and will provide:
