

Classroom News

Class Name: Oxford Term : Spring Term 2 2018

What we have been learning:

We have continued to work hard in all our lessons.

Science

We have learnt about the moon and its craters. We conducted an investigation to find out whether the size of a meteor would change the size of the crater. We had great fun dropping meteors from different heights into a tray of flour and measuring the size of the crater that was created.

Foodwise

We started this term making Chinese food. We made spring rolls, egg fried rice and chicken chow mein.

We also had our own 'Great British Bake Off' challenge, where we made Jaffa Cakes. They proved easier than we first thought and Caroline judged our entries. Alfie and Cameron were our star baking team!

Maths

We have been focusing our learning on measurement. We have been giving directions to a beebot to move it around a maze. We have been measuring using ruler and measuring in cm and mm.

World Book Day

On World Book Day (mark 2) we explored the work of illustrators. We looked at the work of Nick Sharratt who illustrates Jacqueline Wilson's books. We learn how to draw emotions on to the faces of different characters.

Art

With Renee, Oxford Class have been making sculptures of aliens. We used wire to create the base and then covered it with newspaper and Modroc. When it was dry we painted them.

Date to remember –

29th March – end of term

16th April – back to school

7th May – bank holiday

16th May – SAP parent's evening

25th May – last day of term

Activity Week- Week Beginning 11th June – More information to follow next term.
