

Classroom News

Class Name: Windsor
Whole School Topic: Bugs and Shrubs

Term : Summer 1

What we have been learning

Windsor have been reading Super Worm in class and have been making our own superhero story. Students have been helping each other to create a roleplay of our story using props. We also wrote a brilliant poem about the insects in Super worm as an introduction to our Bugs and Shrubs topic. We are still working hard at our phonics skills and have been getting much better at blending sounds together to read words.

We have been learning about time in maths. Some of us have been learning how to sequence events and some of us have been learning facts about time including how many seconds are in a minute. We have been practicing putting the months of the year in order. (Brandon is brilliant at putting the date on the board every day.) We have had the opportunity to work with a cricket coach to develop our cricket skills this half term and he is very impressed with our teamwork skills.

Some photos of our learning

Special moments

Windsor class did so well when they spoke to the Judges at the final of the Agricultural Challenge about all their hard work. We came second overall and we won first place for our collage. The judges were particularly impressed that Naomi had made braille labels for all 52 flags on our commonwealth games collage. The judges could see that everyone in the class had worked really hard on the projects, which included growing radishes from seed through to making soup (the judge took the recipe home!) and making a water collector. Well done Windsor.

Dates and points to remember

23rd May – Trip to the Hawk Conservancy
25th May – Last day of half term and non-school uniform day.
4th June – back to school
27th June – 4 Kingdoms
29th June – Swimming at Northcroft
4th July – Donnington Castle and picnic.
5th July - Bowling
6th July – Bournemouth (pick up from school at 5)
20th July - Last day of term
