

Classroom News

Class Name: Dunnottar

Term : Autumn 2021

What we have been doing

Dunnottar have been on full speed since starting back in September. We start our week with PSHE where we are exploring the book Oliver Twist. We are following Oliver's journey and experiences which link wonderfully to the areas of PSHE required. Some of these being – managing risk and healthy relationships. World of Work sessions have focussed on some local employers as well as ideas for potential work experience placements. Students are working very hard to think about their futures and have plenty of opportunities to voice questions or opinions. Life Skills and Cooking sessions are chances for our students to not only develop their independence but also develop knowledge and skills needed as they continue their journey into adulthood. We have looked at emergency services as well as volunteering. Dunnottar still cook for the whole of Post 16 on a Tuesday. They are coping well with the demands of a busy kitchen and the produce delicious food!

Maths has focussed on number and English has focussed on reading and spelling skill. Students transition to different classes appropriate for Maths and English and are completing work to a good standard!

Subject matter in Drama this term has been around diversity. Students have worked well together and also developed communication through tasks set.

Experience Afternoon has allowed for students to hone their skills in an area of enjoyment. It's a creative afternoon with delight for all!

P.E has explored different sports where students have not only gained skills but also enjoyed the variety on offer. Whether you love dance or the precision of badminton Post 16 has something for all!

Students engage in intervention sessions twice a week where they can develop skills and outcomes relating to their EHCPs.

A fabulous term for Dunnottar!
