

# Classroom News

Class Name: Oxford Term : Spring term 2 2021

## Together Again!

We are all so pleased to be back together in Oxford Class again. We have been spending lots of time chatting and catching up with each other. We have also been busy with our team building exercises like this one; we had to work together to pick the box up and tip out all of the balls without going inside the cones. It took lots of team work and communication. After a lot of determination, we all did it! It has been great seeing how happy everyone is to be back in school with all their friends.

We have also really enjoyed our outdoor PE sessions with Totnes Class. It has been really fun to practice our hockey skills and of course get our step count up for the 'Walk around the World' challenge!

## **Important dates:**

Pupils return to school on Monday 19<sup>th</sup> April

## Our Learning

We have been enjoying weekly Science lessons. One of our favourites was finding out about the 7 types of plastics and which ones are widely recycled. We sorted out lots of packaging to find out which ones are most commonly found in our homes. We also took part on a quiz and found out so many facts. Did you know? A disposable nappy can take up to up to 500years to biodegrade!

## Art

We braved the weather and went outdoors to create our own Jackson Pollock style pieces of art. Despite the wind, we managed to create some amazing pieces of work. We will be bringing them home soon so we will be able to talk to you all about our technique and Pollock's style.

**It's been a fantastic few weeks and we are looking forward to many more.**

**Happy Easter everyone! 😊**
