

# Classroom News

Class Name: Windsor

Term: Spring 2

Topic: Spring and new beginnings.

## What we have been learning this term:

It has been wonderful to have everyone back in the classroom and we have loved hearing everyone's news and catching up with our friends and some of us have been playing our guitars together. We have made Spring trees for our weather board, and have been thinking about what we need to wear in Spring.

We learned lots about melting and freezing during Science week, we hope Mum's liked their ice garden pictures, which were in their cards.

We can tell how much you have been practicing your snack shops at home, because everyone is getting better at using and recognising coins during our class snack shop. We have been using numicon to help us work out what each coin is worth and some of us have been adding and problem solving using money.

We have learned lots about internet safety and have put the posters and pledges from both home and school learning, on our board. We know that we need to use the internet in a room with our family, so that they can keep us safe. This includes online video games, as we know that strangers could try to talk to us online. We know that we do not reply to strangers online, and that we can ask a trusted adult for help if we are worried. We hope that you found the internet safety information useful, which was emailed. Please ask Hayley if you need any more information or help with setting up parent filters. We have been finding out about Work Experience opportunities in Post 16, and have been able to Zoom the World of Work Students to ask them questions about what is available.

Our Agricultural Challenge Collage is almost finished. We will email home a final collage when we have all of the beautiful animals on. We are also growing cress and making a seed diary. We are not able to meet the other schools, for the Agricultural Challenge final, like we normally do of course, but we will be making a video of all of our work to share with the judges. The competition will be judged on the 6<sup>th</sup> May; we are very proud of all of our work, so we hope they like it!

We are getting really good at adding in Maths, and have continued to enjoy our witch number games. We will be learning about positional language during our egg hunt at the end of term.

## Some photos of us!

We hope you have a lovely Easter holiday and we will look forward to seeing everyone back for the Summer term! Happy Easter.

### **Dates & Points to remember:**

Last day of term Thursday 1<sup>st</sup> April (normal time)
