Class Name: Skipton

Term: Summer 2 2019

Topic: The Living Rainforest

What we have been learning this term:

Well we have come to the end of the most amazing year in Skipton, what fun we have had. So much learning, so much determination and such beautiful friendships. Here are a few golden moments from this term.

English: We all enjoyed creating our own African Animal Number Book, remember to include some exciting adjectives.

Maths: So we now know what a $\frac{1}{2}$ and $\frac{1}{4}$ is and can find these fractions in shapes too. We also made our own tally charts, counting in 5's.

Geography: We have learnt about different jungles. We never knew that 'Mangrove' Forests were close to The Equator and coast. Did you know you could find sharks there?

Science: We have planted sunflowers and marigolds, observed them grow in different conditions and drawn and labelled detail drawings. We are now expert growers!!!

Life Lessons: So we now know what makes a healthy meal, even if we don't like vegetables! We wrote our own activity diary, with some interesting exercise choices.

Now to share a magic moment from this year, from Super Skipton!

Our Magic Moments This Term

Katie: Wow, your writing has improved so much, spelling words on your own, sounding out beautifully.

Bobbi: Your counting book was awesome. We loved reading your sentences, you used some great adjectives, snappy, weird, crocodile!

Ethan: Your den-building skills were phenomenal, you knew exactly what branch to put where!

Alex: We have been so impressed with your art, with Renee, you have created so many detailed drawings.

Harvey: Another prolific den-builder, your team management skills were amazing. You directed everyone and had everyone working together!

Joe: So keen to learn, so willing to share. You especially enjoyed geography learning all about jungles.

Christian: Spelling words all on your own, just by hearing the sound. That's impressive!

Connor: What a great little gardener you are, thank you for making sure we watered our plants!

Amber: Choosing to read, writing all your own sentences and sharing your work too! Amazing!

Kurt: Some great counting in 5's and using this when calculating your tally charts, brilliant!

Dante: Den-builder extraordinaire number 3. You took control of your team and helped build an amazing structure!

Some photos of us!

Den Building was so much fun, the teamwork shown was incredible!

Again at Sports Day, we all encouraged each other and joined in with great sportsmanship.

Wishing you all a wonderful summer, thank you for an awesome year! Have fun and see you soon!
