Class Name: Wallingford

Term : Summer Term 2 2019

## What we have been learning

During this term we have made enormous headway with our Growing2Gether allotment space. It is looking beautiful, and we are having a bountiful harvest already. The students have worked tirelessly. They have all reaped the benefits for their mental health and well-being from working outdoors amongst nature. It has helped their physical strength and balance, and their sense of community. A really successful project all round. The students have started to sell the produce at Post 16, and the profit will go towards further projects at the Post 16 allotment area at Growing2Gether.

Many students in Wallingford have sat their Entry level exams this summer, and have coped admirably with the pressure.

We had a wonderful time at Mudeford beach, and were blessed with the sunshine. We were very proud of our Wallingford students as they were so polite and grateful all day. A real pleasure to take out for the day.

The prom was a fantastic evening. Our students looked amazing in their outfits, and had a brilliant time.

## Special moments.

Esme won first place at the RDA pony event. She achieved 99/100!!

Brandon has had a fantastic start to his work experience with the National Trust. He really is a credit to himself and The Castle School.

Abi too has made a great impression at her new work experience placement Fair Close. The staff and clients love her going there, as she is so friendly and hard working.

Naomi spent the whole day in the sea at Mudeford!! She had a fantastic time.

Sophie passed her Entry Level 1 maths exam. What a brilliant achievement.

## Some photos of our learning
