

# Classroom News

Class Name: Dunnottar

Term: Christmas 2021

## What we have been learning this term:

Wow! What a busy term for Dunnottar. Mondays have continued to explore Oliver Twist taught through PSHE concepts. We have explored types of relationships and the criminal justice system. Life Skills have linked to PSHE in relation to crime and have covered Community Inclusion from the Preparation from Adulthood outcomes. Students have continued to cook for the whole of Post 16 choosing some brilliant recipes and executing with professionalism. World of Work has focussed on Health and Safety and students have explored different aspects of this within different work environments. Linking to this, we have worked on our communication skills through conversation and role play. Wellbeing sessions have explored certain emotions that we can evoke such as gratitude. English has continued to develop skills in areas of Reading, Writing and Spoken Language and some students have engaged in Practice Functional Skill papers. Maths has continued to build on the foundation of number and has now explored measurement in functional contexts such as shopping. Anna has supported students through Drama sessions to explore the use of Green Screen and intonation and expression. Experience Afternoon has continued to allow students to explore a new skill and develop competence within it. We have some great chefs, minecrafters, beauticians, crafters and DT'ers!

We have been lucky enough to have a cricket coach in for P.E. sessions and have explored table cricket which many students enjoyed!

Some students have continued or started work experience which allows for exposure of a different environment and development of new skills we can't necessarily teach at Post 16.

We have had a lovely term and are very much looking forward to the new term starting on January 4<sup>th</sup>! See you then!

## Some photos of us!
