Class Name: Arundel

Autumn Term 2 2025-2026

What we have been doing this term:

This term we have been developing our communication and team building skills alongside:

Maths: We have been learning about the different properties of arithmetic. How to decompose numbers, the relationship between commutativity and associativity and different methods of multiplication.

English: We have looked at characters and settings. Identifying the subject of a sentence and how to write actions in the past simple.

Science: We Have looked at the effect of forces. Students enjoyed using magnets, balloons to look at the different types of friction they create.

D&T: Students enjoyed making masks and marbling.

Offsite activities: Smelly wellies and climbing have been a success. Where students have been developing their skills working as a team in supporting and encouraging each other in order to take part in the activity. Students have also enjoyed some geocaching, managing to successfully find 5 in the local area.

Food technology: We have looked at the importance of healthy eating and hydration. Students have enjoyed cooking making rice crispy cakes, flapjacks, cheesy scones and pizza toast.

As the term comes to an end the students have been getting into the Christmas spirit making decorations for the class, baking and decorating gingerbread cookies and taking part in a range of activities.

From the Arundel team:
Michelle, Jess, Jordan and Ciaran
