Class Name: Conisbrough

Term: Term 3 2025-2026

Topic: Environment

What we have been doing this term:

Conisbrough have had a great first spring term. Students have continued working on their individual pathways and are excelling.

In Maths, we have been focusing on data and statistics. In English, we are linking our writing to the topic of environment. In Science, we have all had fun learning about biology and exploring various slides using the microscopes.

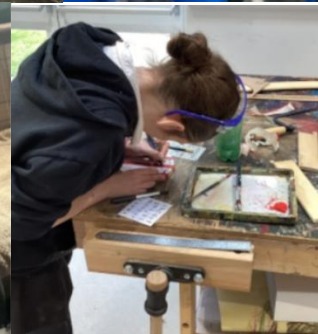

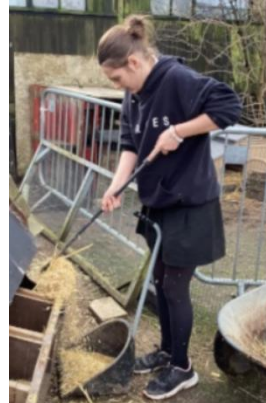

Students have been busy completing assignments for their different BTECs (Art & Design; Land-Based Studies; Science & Vocational Studies) and we could not be prouder of how they have taken this on in their stride.

In World of Work, we have learnt about teamwork and working as part of a group. In PGW, we have been focusing on emotional wellbeing.

We have cooked some delicious things in food tech including lasagne & homemade bread.

Our offsites have been a lot of fun with students visiting parkour, Smelly Wellies, Autoskills, climbing, nature walks & RAW Mentoring. It is amazing to see everyone's resilience & confidence building through these trips.

Some photos of us!

Dates & Points to remember:

Last day of term: 13th February

First day back: 23rd February
