

# Classroom News

Class Name: Arundel

Term: 3

## What we have been learning this term:

This term the Arundel class have worked super hard settling back into school routine after our Christmas break. As you can see from the photos, we have been very busy!

In maths the students have been learning about factors and multiples.

The students have been getting used to and working with clicker in English. They have been using this to correct their punctuation and create brilliant stories.

We have been learning all about space and gravity in science.

Cooking has gone down well this half term with all of our students, they have enjoyed making scone-based pizza, pancakes, and an apple crumble, all going down a treat!

The Arundel team is very creative, putting this to good use in DT where they have been working on masks and their own lamp. They have even tried out marbling which was a class favourite activity.

There have been a variety of offsite activities these last few weeks including nature walks, Earth Trust, visiting the gym and many trips to the park.

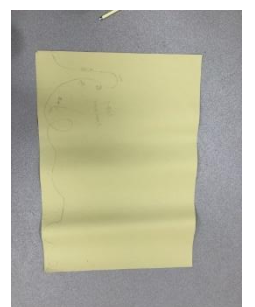

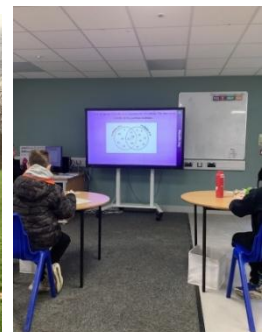

And in all of the downtime, the students have enjoyed playing board games, making their own board games, kahoot quizzes and even funny videos on YouTube! This has all helped with the development of their social skills.

Have a lovely half term!
