

Classroom news

Class Name: Arundel

Term: 4 2025-2026

What we have been doing this term:

It's hard to believe we are at our easter break already.

In Geography we have been learning about volcanoes and the class are enjoying making their own papier Mache volcanoes. Which they are looking forward to using to create a volcanic eruption.... Pictures to follow.

In maths the students have engaged in learning about positive and negative numbers and where we see and use these in real life situations.

In English students have been developing their confidence in creative writing, using clicker to support learning and story writing. We have had some very creative ideas and storytelling.

In D&T students have been taking advantage of the nice weather, being outside in the garden and planting seeds and herbs.

Cooking as always has been a favourite. Students have enjoyed making muffins, stir fry and a curry. They particularly enjoyed the taste test part of the analysis they did on comparing different types of muffins and yogurts,

Our science topic this term has been learning all about the different types of energy how it is created, where it comes from and the different ways in which it is stored and used.

Students have continued to enjoy playing Kahoot quizzes, wordle and emoji kitchen which continues to help with developing their social skills and interactions. We have also been focusing on understanding and recognising our emotions and how these relate to how our bodies may be feeling.

We wish you a happy Easter.

Arundel Team

Michelle, Jess, Jordan and Ciaran

Some photos of us!

Dates & Points to remember:

Last day of term: Friday March 27th, 2026

First day back: Monday April 13th, 2026
