

Classroom News

Class Name: Oxford Term: Spring Term 4 2025-2026
Topic: Cards, cash and contributions

What we have been doing this term:

We have had a busy half term as we have moved into our new classroom. We have all got used to the new space and the new routines. We have really enjoyed exploring the new building and all it's space.

Geography

We visited Northbrook Street and collected information about the types of shops that along it. We created a tally chart to show how many different shop there were. Back at school, we used the information we collected to create a graph and a visual map of Northbrook Street using photos of each shop.

Cooking

We have cooked a wide range of different foods this term, including pancakes and cookies. We also had a visit from Jan from Newbury Showground, who helped us make roasted vegetables and chicken.

Science

We planned and carried out an investigation to test how to clean coins. We tested a lot of different liquids and substances including salt, vinegar, cola, lemon juice, ketchup and more. We were surprised that the ketchup cleaned the coins better than the cola or lemon juice.

History

We learnt about rationing as part of WWII. We used scales to weigh out the amounts of different foods that a person would get each week.

Maths

In Maths, we have been focusing on budgeting. We have solved lots of challenges where we have had to add up the costs of items whilst remaining within a given budget. We have created a fictional zoo, furnished an empty flat, planned a party and planned a birthday gifts.

Dates & Points to remember:

End of term- Friday 27th March

Summer term starts- Monday 13th April

Some photos of us!
