

# Classroom News

Class Name: Arundel

Term: Term 5 2023-2024

## What we have been learning this term:

In Arundel class this term, we have been learning about the reproduction of cells and changes that can occur during puberty in science.

We have been focusing on positive relationships and building on our awareness of emotions in Zones and PSHE. Specifically, healthy friendships and qualities that make a good friend.

This half-term, we have returned to climbing 😊 where students have continued to develop their climbing skills and grow their confidence. Students have been attempting more challenging climbs and have been supporting each other to succeed to the best of their abilities.

Algebra has been a key focus of our Maths lessons; students are expanding their mathematical knowledge and vocabulary. They have all enjoyed the challenges that this topic has presented.

We are currently reading Danny the Champion of The World as our fictional topic book. We have been discussing the plot, setting and character descriptions. In English language, we have read a variety of non-fictional texts and have been identifying punctuation and grammar techniques.

We look forward to seeing you after the half-term break.

Arundel Team

*Suzanna, Emily, Michelle, Kelly and Katie*
