Class Name: Tiverton

Term 5: 2025-2026

Topic: People and their Jobs

## What we have been doing this term:

This term in **maths**, Tiverton have been learning to tell the time. We practised comparing and ordering time intervals before using analogue and digital clocks to tell the time to o'clock, half past, quarter past and quarter to the hour. Throughout our lessons we engaged in activities such as such as time bingo and dough modelling to reinforce our learning.

In **English**, we have been reading *The Night Bus Hero* by Onjali Q Rauf. This book has allowed us to explore features of fiction texts and build on our prediction and descriptive writing skills. We have also learned about the four main sentence types: questions, exclamations, commands, and statements and have used these to develop our own writing skills further.

In **science**, we have been learning about circuits and electricity. We learned about the theory of how electrical circuits worked before going on to build our own.

This term in **geography**, Tiverton have been learning about a range of countries around the world, including India, Germany and Australia. For each country, we explored its continent, language, tradition and climate and discussed whether it is somewhere we would like to visit in the future.

Using our geography knowledge, we also created PowerPoint presentations in **ICT** about a country of our choice, helping to develop our research and technology skills.

In **PSHE**, we have focused on our emotional and physical health. We explored how exercise affects our bodies, the importance of a healthy diet, and the effects of substances such as drugs and alcohol.

We have also enjoyed several **off-site visits**, including our weekly shopping and park visits. We also enjoyed a sunny trip to Millets Farm and had a visit from The Canal and River Trust who delivered a water safety talk ahead of next terms canal boat trip.

It's been another brilliant term – thank you everyone for your continued support 😊
