Classroom News

Class Name: Chepstow Term: Summer 1 2026 **Food Glorious Food**

What we have been learning:

Hello there. and welcome to the penultimate Newsletter, for Chepstow, I cannot believe it is our final term next Our theme this term has been '**Food Glorious Food**' we have enjoyed discovering different fruit and vegetables, using our senses, even squidging bananas between our toes, In **literacy** and **communication and Language** and **phonics,** we have listened to stories, used Makaton to sign and labelled foods too. We are also mastering recognising and matching the letters in our names. In **maths** we have compared using small and big and counted fruit up to 20 We have continued to take turns through **'Pass the Bag'** and in our **RISE Therapy, sessions** have decorated cakes, made pasta necklaces and fruit kebabs too, In **Understanding the World,** we have thought about hot and cold foods, introducing the words frozen and melted and discovered where some of our foods come from. On a Wednesday, Totnes and Oxford continue to join us for inclusion which has been fun, it is wonderful to see the children responding to their older peers. In **Personal and Social** we have been learning about healthy foods and why they are important, why we should drink water and that we need to have enough sleep to recharge our own battery. We have begun **Rebound Therapy** with Averil, and she comments weekly how well everyone is doing and how great, we all are at following instructions. **Thank you, have a lovely week and see you all for Term 6 – Jo, James, Penny, Cath, and Chloe x**

Some photos of our learning
