Class Name: Pembroke

Term:

Christmas

2020

What we have been learning this term:

Wow! What a busy term this has been! We started our term looking at Bonfire night and have worked our way through Remembrance, Diwali and finished off with Stickman and Christmas.

The children have been amazing at getting stuck into their phonics and retaining the sounds that we have been looking at. In maths we have been working on our counting skills and recognising our numbers. In English we have enjoyed lots of sensory and interactive stories with the whole class taking part in dressing up as characters and feeling, tasting and smelling items from the various stories we've enjoyed. We've been practising making choices with lots of visuals and some of us have been making sentences using colourful semantics to help us with our word order.

In music with Charles the children have loved playing different instruments and learning lots of Christmas songs.

Our weekly cooking lessons are always a favourite and the children are getting more and more confident in smelling, handling and tasting different foods.

Another favourite is our weekly trips to the woods here at school. We've enjoyed exploring the area, finding elves in the trees, sledging down the bank, playing with our stickmen and making Christmas stars.

In PE we have been throwing and catching a range of different balls and then exploring some of the apparatus. Everyone has become braver trying out new equipment and pushing ourselves to climb higher, and move safely between equipment.

Merry Christmas from all the staff in Pembroke class and we look forward to seeing you in January for our new topic 'To infinity and beyond'!
