

Classroom News

Class Name: Windsor

Term: Christmas

2020

What we have been learning this term:

Windsor have worked hard in Maths, learning about 2D shapes and making Rangoli patterns. Some of us have been working on tessellating shapes and fractions of shapes. Windsor have also been developing our number skills through Christmas themed maths activities, involving counting, adding and subtraction, including one more and one less. We have been developing our maths skills in our snack shop.

We have been able to have a virtual tour of Post 16, to help with transition. Everyone loved seeing their friends on the tour! We have also had a presentation by former pupil about his job. Next term, we will be interviewing Post 16 students who are currently part of our World of Work Programme.

In English, we have been learning how to write letters, to the people we have interviewed (and a very important letter to Father Christmas.) We have also been playing team games and have been learning how to write instructions.

In PSHE, we have been thinking about friendly and unfriendly actions and how what we do affects others. We have been playing games as a team and have been practicing how to work and play well together. We have also been thinking about our emotions.

We are developing our cooking skills, both in the class and the cookery room. We have been reading recipes and have been working hard to measure ingredients. (We hope you enjoy the Christmas cake!)

We have all enjoyed taking part in zoom choir and our whole school zoom assemblies. We have had many opportunities to work with other students in our bubble. We are making Christmas special in blue bubble with decorations, preparation for our Christmas party and a special visit from Father Christmas. Windsor class would like to wish you a very merry Christmas and a happy new year.

Some photos of our learning

Dates and events

End of term Friday 18th December (Normal time)

INSET day 4th January

First day back for pupils 5th January.
